POINT OF VIEW

Yuthika Kejriwal, Class 12

Deputy Editor, Perspective, The AVS Photographic Society

Photography might just be a word but it has a thousand meanings to it. Every lens is a gateway to a different world. I don't know what others do, but I seem to find meanings in every little thing I see; that is what connects me to photography. Photographers all around the world have different reasons for choosing this activity. Perspective shows you the different aspects of a person's understanding. You might just see the beauty of a moment in a photograph. I personally like landscape photography for the reason that it reminds me of the moments I spent in a place. I can revisit that place again in my mind. I want to capture thousands and millions of photographs everywhere I go throughout my life, so that when I turn old, I look at them and I think what a glorious time I had!
