

## Report by Akshat Poddar

Ashoka University hosted a Young Scholars' Program on their campus in the **Summer program from 27<sup>th</sup> May to 30<sup>th</sup> May 2024**. Ashoka's Young Scholars Programs (YSP) are accredited summer programs designed to inspire 9th, 10th, 11th and 12th grade students to enter a college-level curriculum in the arts and sciences.

During the summer vacation, they had five interdisciplinary and interdisciplinary program options. One of our students had the opportunity to be at the forefront of science because the program offers an interdisciplinary approach to cutting-edge research and engagement in areas including life sciences, astrophysics, chemistry, mathematics and computer science.

Students have access to advanced software, laboratories and equipment under the expert guidance of Ashoka's renowned Science Faculty. Discussion groups and breakout sessions allow students to apply what they've learned to develop and create solutions to real-world challenges and interact with people across the country. An Aviator had the great opportunity to study at a prestigious university like Ashoka and make friends and diversify his career options.
