

# Report of Harvard Summer Camp 2024

“Wherever you go, go with all your heart.” – Confucius

From the 6th to 13th of July 2024, a delegation of 7 students and 1 teacher from AVS joined the Harvard Model Congress, Learn with Leaders Summer Camp 2024. The event consisted of attending lectures by Mentors who were Harvard students themselves and learning about how to write and present a Literature Review. Classes were held according to mentors and their specialties which included but was not limited to migration, psychology, social sciences amongst other interesting topics, one lecture was even taught by a professor! By the end of the week, every student had to present a paper that they had worked on throughout the week to receive their certification.

With over 140 students attending from over 20 countries, our students spent the productive week soaking in the aged yet beautiful Harvard campus, exposing themselves to the multitude of cultures that joined the program, and making friends and memories that will last a lifetime!
