

# Session with Class 8 (Group 3 Subject Choice)

&

## Class 10 (Stream Selection)

Report on the sessions conducted by the Careers Department along with the Academic department on **9th December 2024**. These sessions focused on **Group 3** Selection for Class 8 students and Stream Selection and *Why AVS After Class 10* for Class 10 students.

The program began at **6:30 PM** with the session for **Class 8** students. During this session, we discussed the various **Group 3** subjects available and helped them understand their options better.

Following this, we conducted a session for **Class 10 students titled "Why AVS After Class 10?"**. In this session, we highlighted what **AVS offers** to its students throughout their journey here. We also outlined the upcoming opportunities and shared the diverse academic and co-curricular pathways available to them in the coming years.

After this session, subject teachers worked with the students to guide them in choosing the right subjects for **Class 11** based on their interests and future goals. Additionally, we assured the students that they are welcome to approach the Careers Department at any time for guidance or clarification. The sessions were well-received, with students actively participating and asking numerous questions, all of which were addressed by our team.
