

Career Counseling Session at Assam Valley School

The Careers Department of Assam Valley School (AVS) successfully organized a career counseling session, along with a psychometric test, for 103 Grade 11 students in collaboration with Global Reach, Guwahati. The session was held from 23rd to 25th February 2025. AVS first partnered with Global Reach last year, and since then, they have been consistently supporting both our students and the Careers Department in their career exploration journey.

At AVS, we are committed to equipping students with the right knowledge, guidance, and opportunities to help them make informed decisions about their future. The success of such initiatives is made possible through the unwavering dedication of the Careers Department, housemasters, housemistresses, and dames, who work tirelessly to create meaningful learning experiences for our students.

As the saying goes, *"No one can achieve true success without the support of family, teachers, coaches, and good friends."* The right guidance is crucial in helping students reach their goals, but their success ultimately depends on their willingness to trust the process, follow their mentors' advice, and stay committed to their efforts.
